

Software Product Owner (m/f)

Full-time, Hamburg/Germany

About Presonus Software

PreSonus Audio Electronics has become known for delivering professional quality audio products at affordable prices to audio professionals, musicians and hobbyists around the world. The PreSonus staff in the sales, engineering, and customer service departments all have years of experience in professional audio as musicians and sound engineers which brings passion for music-making to every facet of the company. PreSonus' founder and President Jim Odom is credited with two RIAA Certified Gold Records, one Certified Platinum Record along with two Ampex Golden Reel Awards as a musician/producer/engineer.

PreSonus Software Ltd. is a new entity of PreSonus, based in Ireland with an R&D Facility in Hamburg, Germany. PreSonus Software is working on next-generation software solutions for music production on PC, Mac and iOS, integrating perfectly with the PreSonus audio hardware product line. Its team has decades of cumulated experience in music software development and shares the same passion for music as the staff in other parts of the company.

Summary

Reporting to the General Manager, the Software Product Owner is the critical link between the software engineering team in Hamburg and the internal and external stakeholders. He/she translates ideas into features and user stories into requirements a development team understands.

The Software Product Owner is responsible for the success of his products. He/she knows and understands the market and its dynamics, is capable of defining the right feature mix and positioning of each product. He/she is familiar with agile software design and development process which allows him to manage projects on a roadmap that's solid in terms of reaching the strategic goals of the company, but also flexible to react to shifting market conditions or technical challenges.

Duties and Responsibilities

- Planning PreSonus Software products – from inception to EOL – with a strong focus on communication between users, software and hardware development teams, as well as connected departments (marketing, sales, support, operations)
- Help with creation of product guides, web content, and documentation
- Special focus on software/hardware integration (crucial: communication between teams, synchronization of planning and design)

- In close collaboration with the general manager, shaping and co-owning the software product roadmap and project backlog; specification and requirements (functional and non-functional)
- Intensive collaboration with an agile software team

Requirements and Skills

- Demonstrated ability to work in a proactively diverse and inclusive organization.
- Excellent, proven interpersonal, verbal and written communications skills.
- Effective problem - solving and mediation skills.
- Demonstrated ability to share skills and knowledge with others.
- Proficiency with office computer equipment and software.
- Demonstrated ability to multi - task and work in a fast - paced office setting.
- Proven ability to cope with conflict, stress and crisis situations.

Experience and Qualifications

- A minimum of five years of experience as agile product owner, in a product management or planning role in the music technology field.
- Computer experience (Excel, Word, Outlook, Adobe, Jira, Confluence, networking)
- Agile project management experience
- DAW / Sequencing Software (Studio One, ProTools, Cubase, Nuendo, Logic, Ableton Live, Reason, ...)
- MI and ProAudio recording hardware (audio interfaces, controllers, signal-processors, speakers)
- Excellent German and English language skills

Start date: October 1, 2018
